Below Scott Ellinger forwarded his supervisor's approval of his continued assistance on the exemptions.

Thanks Scott.

Scott,
That's fine with me. Please keep sharing the info.

Just FYI. This is one of the two 6WQ activities I mentioned awhile back. I'll continue to offer my opinions/evaluations if okay with you.

Subject: Discussion with TCEQ staff about the El Paso exemption

I had a short discussion with Ben Knappe, TCEQ, who knows I've got some issues with the proposed exemption. He indicated that EPWU was pushing them toward a formal submission, indicating that EPWU's meetings with us and NM indicated they should proceed.

I stated it was not my impression and suggested we have a low level conference call to air out any significant issues we recognize. I'll go through the latest version and compile a list of concerns for discussion. We can meet and discuss and prioritize those issues for the call with TCEQ. I'll also get with NMED and get their thoughts on the matter. After we have the target list I'll share with it Ben and we can gather the right folks together on both sides to discuss. I hope to have that call with TCEQ the 3rd full week in October. Sound like a plan?

Thanks all.
